THE *nineteen fifty-seven*

IATRIAN

(Gr. *Iatrios,* Physician)

WOMAN'S
MEDICAL
COLLEGE

Philadelphia
Pennsylvania

Dedicated to . . .

CATHARINE B. MACFARLANE, M.D., F.A.C.S

Seventy-ninth Birthday Party.

Research Professor of Gynecology, Pioneer Woman Physician and Prominent Alumna whose unselfish life and noble works have inspired us and many before us at Woman's Medical College.

Dr. Macfarlane graduated from the Woman's Medical College in 1898 and did extensive graduate study both in this country and abroad. She has received countless honors in her fifty-nine years of practice, a few of which are: The Lasker Award; Strittmatter Award; Gimbel Award, and Achievement Award of The Alumnae Association of the Woman's Medical College.

Dr. Macfarlane is well known, not only to the members of the medical profession, but also to many lay people the world over for her pioneering work in early cancer detection.

Among the positions held by Dr. Macfarlane over the years are: President of the American Medical Women's Association; Vice-President of the Medical Women's International Association; first woman member of the College of Physicians of Philadelphia; one of the founders of the American Academy of Obstetrics-Gynecology; President of the Obstetrical Society of Philadelphia; and, Chairman, Board of Directors, Philadelphia Division of the American Cancer Society.

Operating Room Light—Gift on "This Is Your Life".

"This Is Your Life". Dr. Macfarlane and Ralph Edwards.

THE OATH

I SWEAR by Apollo the physician and Æsculapius & Health & All-heal & all the gods & goddesses that according to my ability & judgement

I WILL KEEP THIS OATH

& this stipulation - to reckon him who taught me this Art equally dear to me as my parents to share my substance with him & relieve his necessities if required, to look upon his offspring in the same footing as my own brothers & to teach them this Art if they shall wish to learn it,

WITHOUT FEE OR STIPULATION

& that by precept lecture & every other mode of instruction I will impart a knowledge of the Art to my own sons & those of my teachers & to disciples bound by a stipulation & oath

ACCORDING TO THE LAW OF MEDICINE

but to none others. I will follow the system of regimen which according to my ability & judgement I consider

FOR THE BENEFIT OF MY PATIENTS

& abstain from whatever is deleterious & mischievous. I will give no deadly medicine to any one if asked nor suggest any such counsel & in like manner I will not give to a woman a pessary to produce abortion. WITH PURITY & WITH HOLINESS I WILL PASS MY LIFE & PRACTICE MY ART

I will not cut persons laboring under the stone, but will leave this to be done by men who are practitioners of this work. Into whatever houses I enter, I will go into them for the benefit of the sick, & will abstain from every voluntary act of mischief & corruption; AND FURTHER from the seduction of females or males of freemen & slaves.

Whatever in connection with my professional practice or not in connection with it I see or hear, in the life of men which ought not to be spoken of abroad, I WILL NOT DIVULGE

as reckoning that all such should be kept secret. While I continue to keep this Oath unviolated, may it be granted to me to enjoy life & the practice of the Art respected by all men in all times! But should I trespass & violate this Oath, may the reverse be my lot!

For New Advances in Medical Science

On August 1, 1956, Sharp & Dohme, the pharmaceutical and biological division of Merck & Co., Inc. became "Merck Sharp & Dohme" to reflect the teamwork which has produced significant new medical products.

Merck Sharp & Dohme—combining in name as well as in fact the traditions and experience of two time-honored leaders in the medicinal field—offers bright promise for further advances in medical science.
